

AKUA

# High decoration for your projects

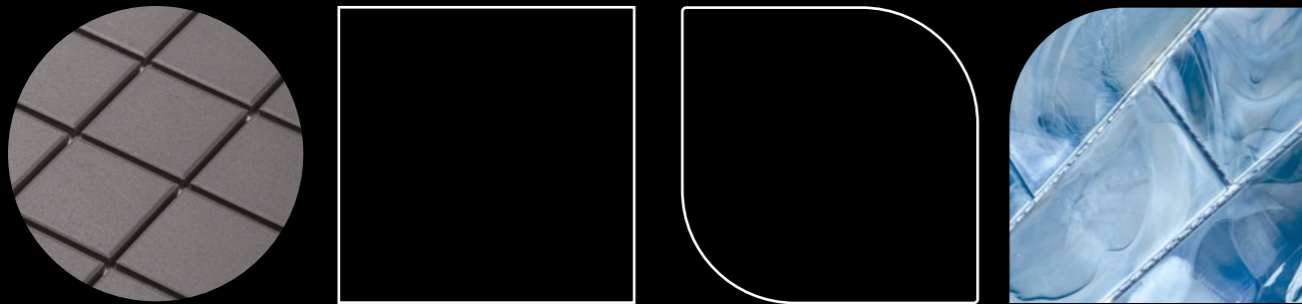

## ■ ■ ● The added value of exclusivity

Recycle glass mosaic, after high temperature firing, does not change colour and deformation, ultra-low water absorption, can be used anywhere, whether on the floor and wall or even in the pool. In addition it is easy to clean, and durable environmental protection.

# Choose, combine, design...

Decorating with mosaic is fleeing from the conventional, giving each room an extra touch of exclusivity. It is to create movement, it is a new concept of sensorial decoration, where shapes, colours, textures and materials merge to create.

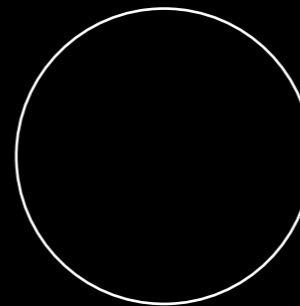

RECYCLED

## Great sensations with its 3D finishes

Ceramic mosaic tiles after high temperature firing are not easy to change colour, 3D moulds are used for its production, creating a very three-dimensional effect, conveying a person new sensations, it is mainly used for wall, looking in layers.
